

Haitham Mohammed

I am a warm, friendly, and enthusiastic individual with a passion for problem solving. I am able to confidently deal with problems that may arise and use my initiative to overcome challenging situations. I have transferable skills and I believe I am a quick and confident learner who is passionate.

I have previous experience (teamwork, communication) suited to this role and I strongly believe that makes me an ideal candidate for this position. From my experience, I have learnt the importance of engaging with customers and clients, working in a team and always striving to deliver the highest standards in customer service.

 - Mathematics - 6
 - Arabic - 8
 - Religious Studies - 8
 - History - 6
 - Combined Science - 7, 7
- BTEC
- Creative iMedia Level 2- Distinction *

Mango Studios LDN, — Intern

July 2022 - Present

Internship

At Mango Studios LDN, our team of experts is dedicated to transforming creative visions into tangible virtual experiences that not only captivate but also convert viewers into loyal customers. Through a hands-on approach, I have had the privilege of being a part of projects that span industries, helping businesses harness the power of VR and AR to engage and connect with their target audience.

During my time here, I have gained valuable insights into the realm of immersive technologies, acquiring skills in receptive communication, telemarketing, and social media marketing. Additionally, my role has involved conducting thorough market research to identify trends and preferences that inform our project strategies. This experience has nurtured my ability to harness research skills effectively, resulting in informed decisions and impactful campaigns.

SKILLS

Communication

I am able to express my understanding of situations and ask the correct questions

Troubleshooting

Able to persevere when nothing is going right

Resilience/ Staying Positive

During my summer holiday I created a website for my uncle's new business. I came across many challenges during its development, however I did not let that deter me and I kept on persevering thinking about the end-product.

Leadership

During my work experience as a Traffic assistant, I was pressured into a situation where I had to take leadership without the seniors to help me and guide those who were less experienced than me. I managed to do this through clear communication including hand gestures.

Languages

I am a fluent speaker in English (native) and Arabic.

JP Morgan Chase & CO, Virtual— Intern

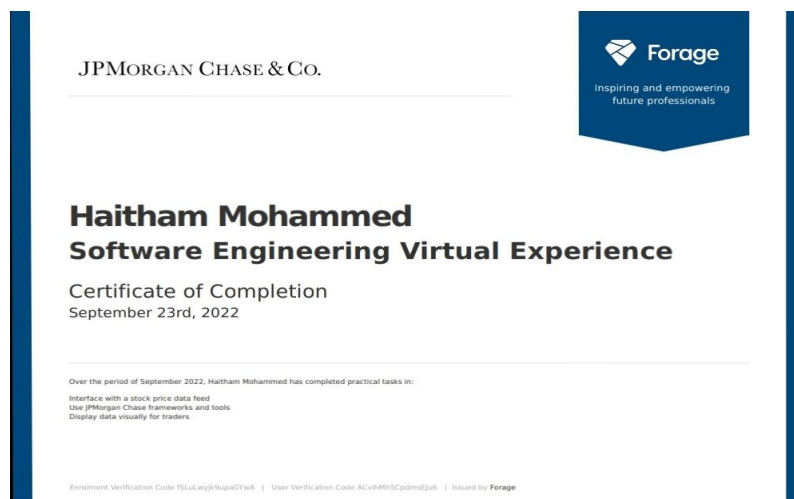

September 2022 - 1 month

Internship

During my work experience I implemented an Interface with a stock price data feed and set up a system for analysis of the data (using python and the command line).I used JPMorgan Chase frameworks and tools and implemented the Perspective open source code in preparation for data visualisation(using npm, node.js and react.js).

I Displayed data visually for traders (using react and typescript).

Used Perspective to create the chart for the trader's dashboard(added on to the preparation and displayed a graph.

PROJECTS

Website — Auto spare parts Website

I created a website for my Uncle's Auto Spare Parts Shop in Somalia. I used HTML and CSS. I displayed all of his products. The website can be viewed on my personal Github account. I am currently learning other programming languages such as JavaScript so I can add functionality to the website. This website will display my progress as a Developer. If you want to check out the website:
